

Regarding PCB Higher Chlorinated ELISA Kit

“... Your training was invaluable to me, and I could not have handled the PCB testing without it.

Also, your quick response while I was on-site was great. Whenever I called with a question, I would get an answer from Abraxis within minutes (literally I never had to wait an hour).

“Thank you once again for everything you did over the past few weeks, and I hope to work with you and Abraxis very soon.”
